

## RING SIZE GUIDE

- Select the proper size by wrapping a piece of string or thread around the desired finger\*
- Mark the length by tying a loose knot or cutting the string at the correct length
- Lay the string flat next to a ruler and click the size guide here to match it to your proper ring size
- For questions, please contact us at [love@neptunejewels.com](mailto:love@neptunejewels.com)

*\*Please note: the proper ring size will need to allow for maneuvering past the knuckle of the finger.  
We recommend selecting a size that goes on and off your finger easily.*
